

Political Action Committee

September, 2026

Dear Friend of Life,

This is a critical time for the life issues in Pennsylvania. Pro-abortion politicians are pushing for absolutely no limits on abortion. This could lead to a tragic situation where abortions could be permitted *up to the moment of birth*.

Currently, the PA House of Representatives is under pro-abortion leadership. As a result, pregnant women and their babies are being placed at tremendous risk.

In light of these high stakes, it is important that office-holders not only pledge support for life, but who show it in their votes for pro-life leadership.

Phil Rice has promised to vote for a pro-life Speaker of the PA House of Representatives. This is crucial for, without such leadership, abortion without limits could become the law of the land in our Commonwealth.

He is also a strong advocate for pro-life policies that will empower pregnant women during difficult times in their lives. He supports the funding of pregnancy care centers which provide comprehensive support and counseling for women and their families.

Phil Rice stands in solidarity with the most vulnerable among us, from the very dawn of life to the twilight of life. He will be a public servant who will defend life no matter what.

All the best,

A handwritten signature in cursive script that reads "Maria Vitale Gallagher".
